

What is the Mobile Clinic??

The Mobile Unit is an initiative provided through Intensive Treatment Systems (ITS), designed to assist and serve people ages 18 years and older that are struggling with substance use disorder and other co-occurring challenges through Medication Assisted Treatment services.

It has been converted into a working clinic in order to provide full service in the community that parallels one of the 5 Intensive Treatment Systems physical locations.

Who are we?

Intensive Treatment Systems (ITS) primary objective is to assist patients to free themselves from substance use issues, with medication management, counseling and integrated care services. Ultimately through the use of supportive services, it is our goal to guide patients toward a life free of drugs and alcohol with improved personal and vocational functioning.

How we do it?

ITS offers an innovative approach to Medication Assisted Treatment (MAT), for Opioid Use Disorder and/or Alcohol Use Disorder. By providing fully integrated care options – 24 hours a day; individualized to treat any drug and/or alcohol addiction, it allows us to work alongside our patients to maximize their chances for success.

WE CAN PROVIDE SAME DAY TRANSPORTATION

Walk In's and Same Day Appointments Are Available!

#SAVINGLIVES

Why Enter Treatment?

- A life free of illicit drugs
- A stable personal, social, family, and financial life
- No physical withdrawal symptoms
- Decreased or eliminated drug cravings
- Resolution of legal concerns
- A chance to obtain or complete an education
- Improved self-esteem, self-worth and independence
- Improved health and a reduced risk of health problems (e.g. HIV, Hepatitis, Liver Disease, etc.)
- Improved overall quality of life
- A chance to regain respect, trust, and relationships with your spouse, children, family members, friends and community
- Other benefits.....

Treatment really does work! Some of our patients shared their personal stories; they tell you better than we can the facts about addiction, the misery this created, how the treatment ITS provided changed their lives and the impact this has had not only on them but their families, friends and communities! Mobile Clinic Services

- Medication Assisted Treatment
- Naloxone (Narcan) Dose & Training
- Peer Support Services
- Drug Testing
- Psychiatric Services
- Case Management
- Counseling
- Transportation Services
- Integrated Care Services
- Referral To Wraparound Services

Goals of the ITS Mobile Clinic

- Conduct outreach to touchpoints for high risk opioid use such as jails, syringe distribution locations, homeless shelters, and SUD treatment programs. The goal is to gain the respect and trust of the highest risk people using drugs in the community.
- Promote harm-reduction strategies based on patients' goals, preferences, and life circumstances.
- Advocate for a harm-reduction approach to patients who use drugs within the community to reinforce evidence-based, non-judgmental approaches so that patients who use drugs get the same care as patients who do not use drugs.
- Establish a relationship with patients and help navigate obstacles to follow up treatment and provide encouragement.
- Use motivational interviewing techniques to communicate with patients in a respectful, culturally appropriate, non-judgmental manner.
- Promote the use of a non-stigmatizing culture when encountering people who use drugs.

What You Can Expect

- To be treated with dignity and respect
- To have access to competent and experienced facilitators
- To experience an open and nonjudgmental atmosphere of helping
- A place for support in recovery
- Peer Support Specialist assistance in meeting recovery goals

Next Steps?

That's the easy part! We are an outpatient provider available 24 hours a day 7 days a week. There is no 'bad time' to call!

You can choose to pre-book an appointment or just walk into one of our clinics.

Our knowledgeable providers will be able to determine the most appropriate treatment for you.
